

What's New in InvoiceAgility

Q1 2025

Release Theme: Touchless Accounts Payable with InvoiceAgility

The gold standard in Accounts Payable is fully automated, touchless straight-through processing for incoming invoices. InvoiceAgility is the industry's leading AP solution, designed to help enterprises achieve this standard with unparalleled accuracy, data validation, compliance, and workflow automation. Backed by AI-powered insights, it enables fast, reliable financial analysis and smarter decision-making.

While e-invoicing maximizes touchless processing — with some Tungsten Automation customers reaching over 99% touchless rates — millions of paper, PDF, and image-based invoices are still issued daily. Enterprises need a solution that optimizes processing for *any type of invoice*.
